

**PARTICLE
CHARACTERIZATION
LABORATORIES, INC.
HAS SUCCESSFULLY
PROCESSED OVER 50,000
SAMPLES**

**WHAT DOES THAT MEAN FOR
YOUR RESEARCH?**

**RELIABILITY
REPEATABILITY
CONFIDENCE
SATISFACTION
SUCCESS**

Particle size analysis

- *Dynamic Light Scattering
- *Static Light Scattering
- *Sedimentation
- *Diffraction

Zeta Potential Analysis

- *Single Point
- *Titration
- *Iso-electric point determination
- *Aqueous and non-aqueous media
- *High Ionic Strength/Viscosity

Molecular Weight Analysis

- *GPC Method
- *Static Light Scattering
- *Contrast Ratio (dn/dc)

Particle Characterization Laboratories, Inc. has supplied the industrial, academic and government research community with professional quality particle size, zeta potential and molecular weight data for over 15 years.

Our repeat customer base is a testament to the high level of satisfaction enjoyed by our clients.

In fact, we are so confident in our work that your satisfaction is guaranteed.

That's a promise that's hard to beat.

Make PCL an Extension of Your Laboratory

Our personal commitment to the success of your project is what sets us apart from other contract laboratories.

We discuss your goals and then decide upon the best research strategy to obtain those goals. Our clients include the US National Laboratories, Fortune 500 corporations, the U.S. Dept. of Defense, the Environmental Protection Agency, hundreds of Universities and large and small privately owned companies.

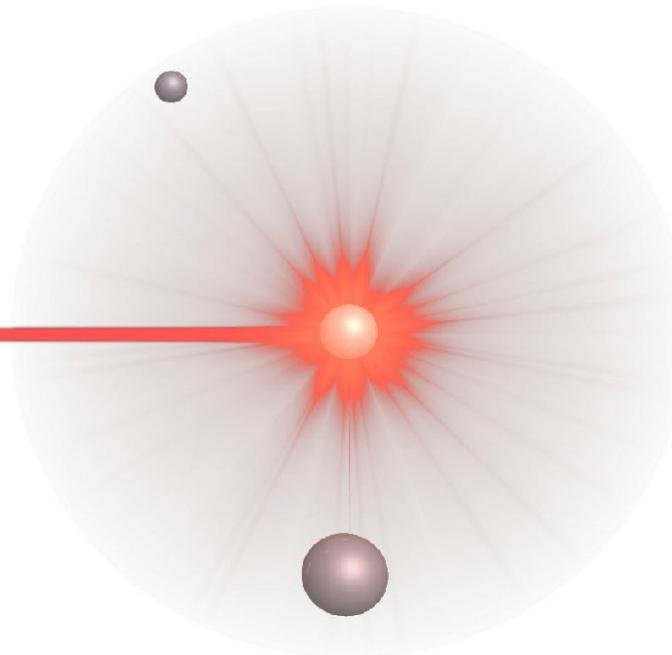

Turnaround Time In 5 Working Days or Less...Guaranteed!

You should not have to pay more just to receive you data in a timely manner. Trust us with your samples and you'll receive your data in five working days or less or the analysis is free.*

RELIABILITY, REPEATABILITY
CONFIDENCE, SATISFACTION, SUCCESS

We take our research as seriously as you do

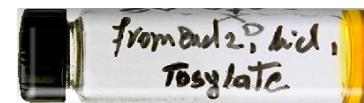

We Welcome Your QC Audit

You should feel confident that your work is completed in a professional manner and in a professional environment. Therefore PCL welcomes your on-site company audit. Just give us a call to schedule the best time for your visit.

Traceability, Controls and Repeat Analyses

Whenever possible analyses are repeated at no additional charge. And analyzed in conjunction with every sample set is a NIST traceable standard, a 'blank' instrument control and a 'blank' media control- at no extra charge.

cGLP Compliant Data

PCL is pleased to submit your data in a cGLP compliant format. That includes fireproof storage of the original data, quarterly instrumentation validation reports and FDA 21CFRPart11 compliance.

Cutting Edge Technology

PCL uses the most advanced micron and submicron colloidal characterization technology commercially available. We are equipped with 3 Watt and 1 Watt Argon-Ion lasers, Brookhaven Instruments ZetaPALS, FOQELS, ZetaPlus, BI-DCP, BI-200SM Research Goniometer, 90Plus, Malvern diffraction and Acorn MRI instrumentation as well as a full compliment of support instruments.
